We, the Class of 1962, in leaving Pleasantville High School, take with us many cherished memories of the past four years. They represent a period of giving and of receiving: of giving our time and our minds to the task at hand and of receiving in return the basis of an education to which each of us will add those experiences that shape an individual's and a nation's destiny.

Pleasantville is and always will be our school. Because we have gained so much here, we urge future leaders of this school to preserve its quality and uphold its prestige. Its continuing excellence depends upon the active dedication of those who teach and those who learn.

In these times when peace is the collective hope, and strength and courage the collective needs, we know that in education is our strength supplied; and in the eternal heart of man are found the hope and courage that man will prevail.

GEORGE E. COOK

*Best wishes,
George E. Cook*

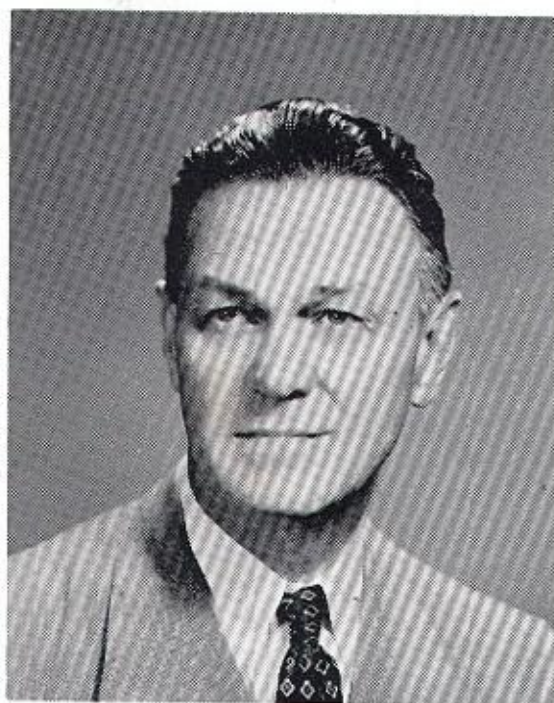

This is a man who supports his belief that the function of a teacher is to guide and prepare the individual so that he may achieve the ultimate of his capability.

He willingly gives of his time to numerous school organizations;

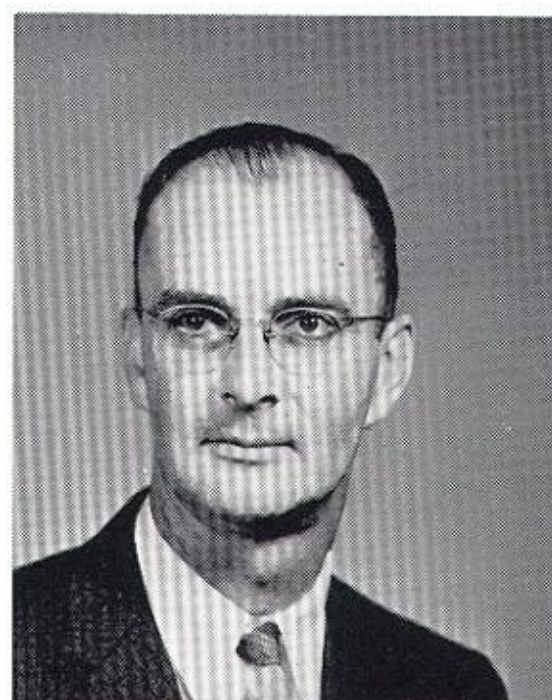

he is quick to assist those in difficulty;

he adheres to his principles in the face of opposition.

We gratefully acknowledge these contributions to the school and especially to our class. It is with sincere admiration that we dedicate this yearbook to our class advisor.

BOARD OF EDUCATION

A necessary link between the school and the community, the Board of Education strives for a higher standard of education at Pleasantville schools.

The Board members are George King, Harlan Thompson, Vice-President; David Parker, President; Mrs. Beach Conger, Fred Lininger.

Members of the Class of '62:

Greetings and Congratulations!

A newspaper columnist recently deprecated the tendency of a national figure to speak and work according to a *Grand Design*.

The expression intrigued me and set me to thinking about *grand designs* and their effect on mankind. Pursuing these thoughts inevitably leads one to authors of *Grand Designs*.

Our heritage is replete with manifestations of grand designs — "the great globe itself", the universe, and the uncharted space beyond must be regarded as the grandest of all designs. So also do we regard its Author, our Creator.

For countless years men have studied portions of this the Grandest Design to ascertain the laws which govern it and have thereupon promulgated principles of mathematics, music, astronomy, and even certain verities concerning man's association with his fellow men. Moses set down Ten Commandments for his people; Jesus preached the Sermon on the Mount; believers in freedom created the Magna Charta and the Federal Constitution of the United States of America. They have been proved to be in harmony with God's *Grand Design*.

Not one of those grand designs has failed to meet opposition among those whose aims were different from those of the designers. Evil men have made designs in great detail which violated the principles of those designs which are in harmony with that of the Creator. Some such designs have already been shattered. The designs of Ghengis Khan, Mussolini, Hitler and others have cost humanity dearly, yet the *Grand Design* was not lost though it seemed to be for centuries during the Dark Ages.

Presently great minds in western Europe are

deliberating over a grand design in the form of a United States of Europe. Though this seems primarily economic in nature, behind it is a philosophy which, if it is successful, may bring more of mankind in closer harmony with God's *Grand Design*. It may well be a part of *The Grand Design*.

What has this to do with a high school and its graduates? Only this, to insure your well being — indeed to justify your existence — you need to have a design which is in keeping with the *Grand Design*. High school, college, as well as your fellow men should help you to draw for yourself such a life plan. Contacts with teachers, professors, and other professionals whose concern is for the welfare of mankind, should possibly alter the original one in some respects; disappointments, setbacks, poor health, even evil men will surely beset you and require further adjustment in your life plan. It has been so in all history. Yet for the courageous, the able, the determined soul — these do not spell failure; contrarily setbacks may lead to an even greater achievement than you had originally thought was possible . . . yet without the original plan measured beside the *Grand Design* spelled out by our Creator, your lifetime may be meaningless and empty.

Lincoln expressed this so well: "I will study and prepare myself and someday my chance will come."

In 1927 another newspaperman, David H. Burnham, wisely counseled thus: "Make no little plans, they have no magic to stir men's blood. Make big plans — aim high in hope and work."

So "make no little plans!"

Sincerely,

Mr. Mac

IN MEMORIAM

LESLIE GARRISON
December 12, 1909 — June 3, 1961
Teacher of Instrumental Music

I am not resigned to the shutting away of loving
hearts in the hard ground.
So it is, and so it will be, for so it has been,
time out of mind:
Into the darkness they go, the wise and the lovely.
Crowned
With lilies and with laurel they go; but I am not
resigned.
Lovers and thinkers, into the earth with you.
Be one with the dull, the indiscriminate dust.
A fragment of what you felt, of what you knew,
A formula, a phrase remains,—but the best is
lost.
Down down, down into the darkness of the grave
Gently they go, the beautiful, the tender, the
kind;
Quietly they go, the intelligent, the witty, the
brave.
I know. But I do not approve. And I am not
resigned.

Mr. Lund,
Let me briefly
express my sincere thanks
for all you have taught me
this year. Your English was by far
the most enjoyable class
I've ever had - and you
certainly helped make
it so.
I'll miss you when I
come back to PHS for visits,
but I'll certainly hope you'll
have a happy stay in Japan.
With love,
Jarene

Mr. Lund,
Thanks you for
the year. This year has
caused me to think at the
expense of my studies but
I hope that the disappointment
in the deficit of one will be
erased by the knowledge that
you were instrumental
in the other.

Dear Mr. Lund -
 This is always so sad, but with teachers
 more so, if possible, than with ~~too~~ friends
 and class mates. Because what can
 you say to a teacher that 18 others
 haven't already said? Still, it
 has been a marvel and a
 great privilege to have been
 in your class, and
 however horrible I may
 have been, I loved every
 minute of it. As a teacher
 you are wonderful,
 as a person even more
 so. Although

STUDENT GOVERNMENT

The Student Government is directly concerned with the welfare of the student body. Its duties are many and varied: approving new constitutions and acting as watchdog over existing ones, directing activities on Students' Day, sponsoring the Rye pep rally dance, running school elections in the spring, and enforcing school regulations.

The representatives had a busy year revising the qualifications for Monitors, approving 100 new badges for the PHP, selling tickets for BUS STOP, revising the list of school offenses, checking up on Student Court, the judicial branch of the Student Government. The absence of political parties failed to dampen the enthusiasm displayed by the representatives when expressing their opinions.

With a healthy profit from "Rye on the Rocks", Student Government set aside \$100 for the American Field Service Foreign exchange student to be sponsored by the school in the coming year. Another worthwhile investment was the loud-speaker trailer which made its debut during the football season.

GENERAL ORGANIZATION

Again in the fall the cry of "Wanna buy a G. O.?" rang out through the halls. For \$3.50 this ticket provides free admission to all home football and basketball games, reduced prices to away games, and free editions of the Green Lantern.

This year, with the increased crowds at football games, the G. O. met the surge with improved concessions facilities. To answer many requests, schedule cards for basketball and football games were printed and distributed free of charge to all ticket holders. The two school plays, *The Glass Menagerie* and *Blithe Spirit*, were sponsored by the General Organization, and in March the G. O. held a semi-formal dance.

The G. O. became the central banking system for school organizations using the school for money-making purposes. Consequently, the accounts of such groups as Student Government, Noon Hour Commission, and Athletic Council are under its supervision.

“SWIAC” was the team’s yell from the first day of practice. Never once did the Panthers let up during the hot practice sessions of September or the cold ones of October. The coaches, Pete Kurachek and Charles Beattie, didn’t have to tell the team to put more spirit and life into the game; the team had the right spirit and attitude to play and play well, and both coaches had said this was going to be Pleasantville’s best football team ever.

The season started with a victory for the Panthers against the Horsemen. This was an exciting game with the only touchdown coming at the end when Bobby Ryan threw Dan Gatti the touchdown pass that won the game for us. The next game against Eastchester was a second Panther victory. Hastings could not stop Don Berger's scoring and the Panthers tallied a third win. Then came one of our biggest games with our formidable rival, Rye. It was on a rainy Saturday afternoon that the Panther team "Fried Rye" at the expense of a few of Billy Bracciodieta's teeth. The Pelicans couldn't stop us, and the Panthers led the league 5-0. The time was then ripe for the final SWIAC game against last year's champs, the Harrison Huskies. They were hit by a stone wall led by defensive linebacker Glenn Gornnert, and were unable to score. The Panthers who were fighting with everything they had, won the game and the SWIAC championship for the first time since 1949. The final game, with Horace Greeley, ended the season with our only defeat.

We, as a team, can be proud of the season we have had this year; the memories we take with us will be filled with the glory as well as the grind of the 1961 football season.

The 1961-62 Panther team has much to be proud of. They grew into a team in one short season aided by their fine coach, Jim McLoughlin, and by the best school spirit Pleasantville has ever seen.

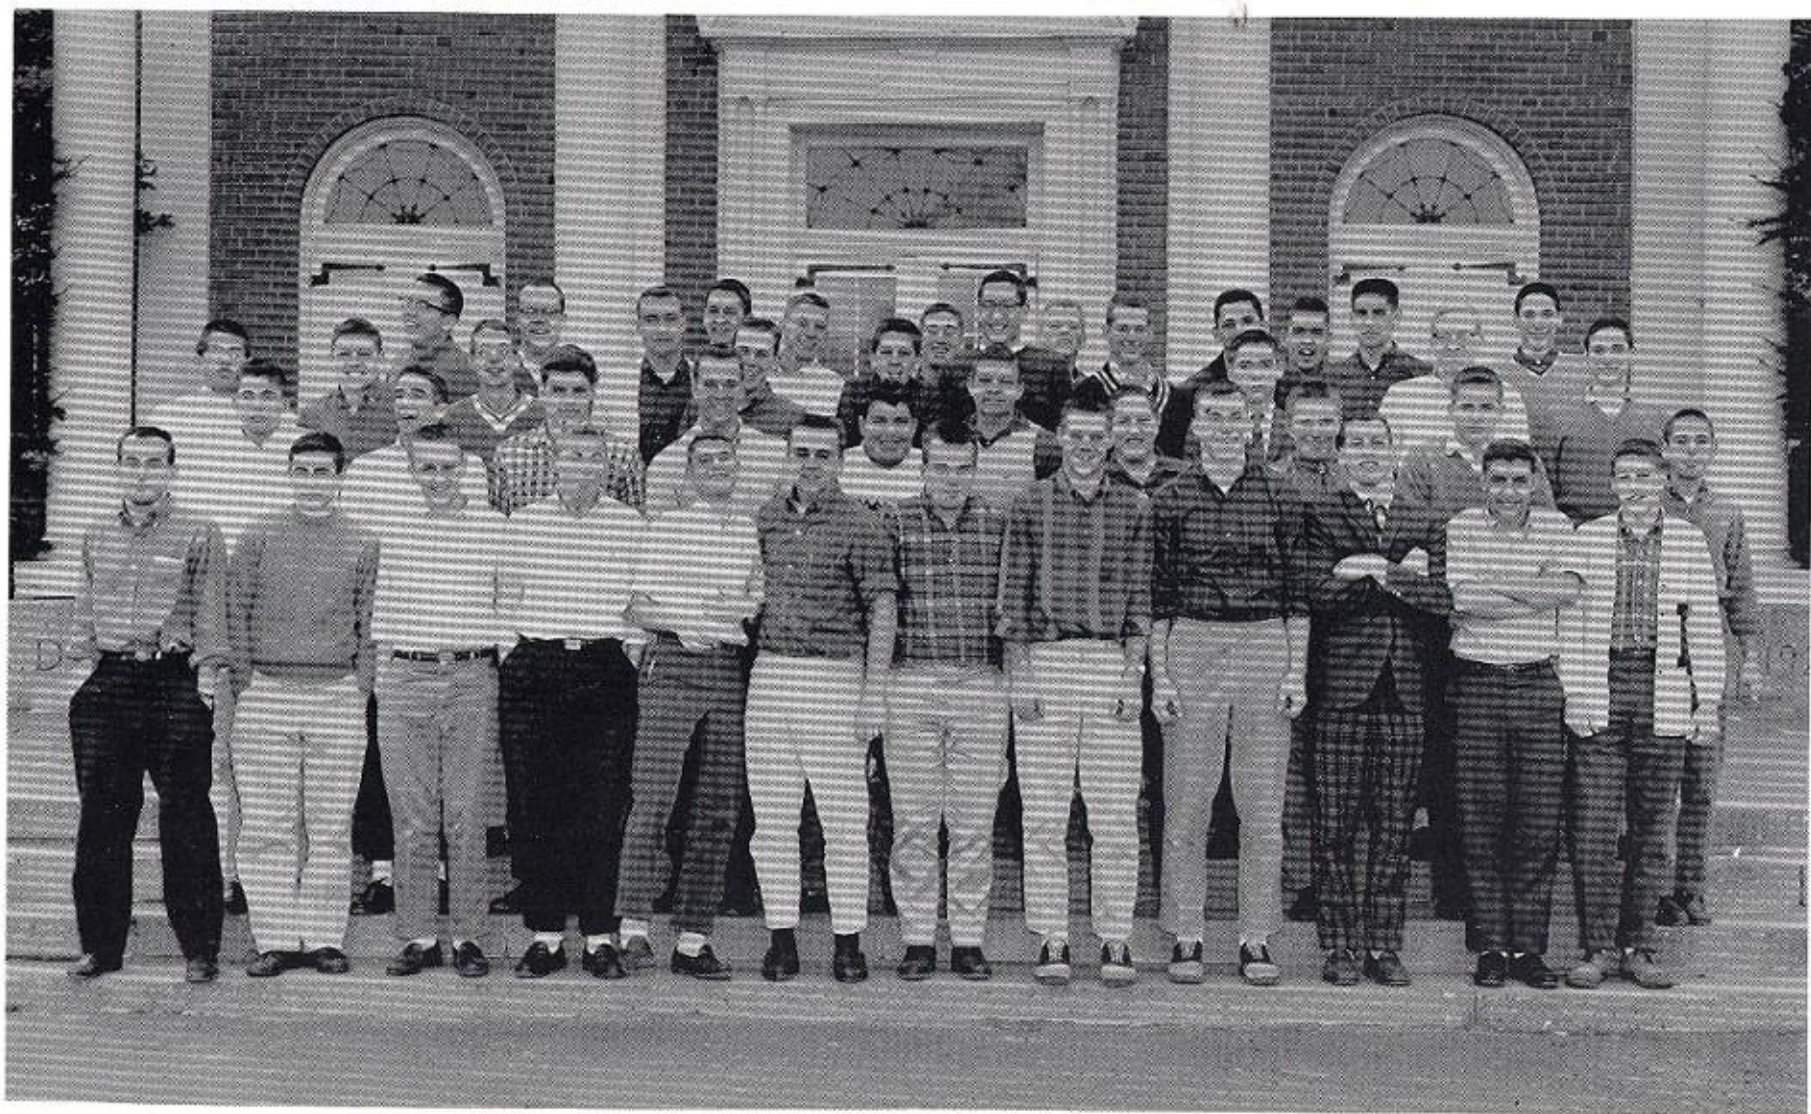

The Panthers started slowly, losing four of their first six games. At that time they were fighting more against injury and illness than against rival teams. When the team was at full strength it began to move. The Panthers won ten of their last twelve games. Victories over Rye, Eastchester, Pelham, and Harrison, and two losses to Sleepy Hollow resulted in their second place standing in SWIAC. Against Pelham our school's all-time scoring record was tied with eighty-four points.

As SWIAC runner-up the Panther team was invited to compete in the Section One Tournament. They defeated Peekskill 56-50 in an overtime thriller. Against Ossining the Panthers played their last game. It was an unfortunate defeat, but at the hands of a good team. The Panthers were proud of their twelve victories, but they were even prouder of their many loyal fans.

The Seniors on the team wish luck and success to next year's team. If basketball games are won on ability, they will surely succeed.

Talk happiness. The world is sad enough
Without your woes. No path is wholly rough;
Look for the places that are smooth and clear,
And speak of those, to rest the weary ear
Of Earth, so hurt by one continuous strain
Of human discontent and grief and pain.

Talk faith. The world is better off without
Your uttered ignorance and morbid doubt.
If you have faith in God, or man, or self.
Say so. If not, push back upon the shelf
Of silence all your thoughts, till faith shall come;
No one will grieve because your lips are dumb.

Say you are well, or all is well with you,
And God shall hear your words and make them true.

Ella Wheeler Wilcox

Dear Mr. Lund,

This year has been the most awakening of my educational career, and I owe this to you. I have become much more aware of nature and the people around me since I have known you. This is the heart of education, and you have laid it bare to me. I hope to hear from you in the coming year and to continue and develop our friendship in the future.

Ala Hershley

Dear Mr. Lund,

I hope to continue our
"friendship" while you are in Japan
and after. I have enjoyed your class
very much with your "very fines"
which came few and far between.
In the future, I will become
educated if I work as hard at everything
as I worked at English. Your whole
trick is to make the student feel
that he has failed you, if he
does not do what is required.
It works wonderfully.

Thank you,
Bob Ryan
